## EXPERIENCE

### Android Developer Intern

Dec 2024 – Present

*Epilepto Systems Pvt. Ltd.*

*Remote*

- Built and enhanced features for the **Dhyan App**, a spiritual social platform offering tools for japa tracking, meditation, pranayama, yoga, chat-based guidance, and scriptural reading.
- Revamped the media uploader system for Kirtans, books, and shlokas, streamlining the contribution workflow and increasing user-generated content.
- Developed and integrated a new Vrat feature that displays important fasting dates and their significance, using data from **Firestore** and **Storage**; enhanced user engagement with spiritually relevant content.
- Played a key role in the app's growth to **1,000+ Play Store downloads** during the internship period through consistent feature delivery and UI/UX improvements.

## PROJECTS

### Habitly | *Jetpack Compose, Firebase Auth, Firestore, Room, Kotlin Flows*

Feb 2025 – Present

- Built a cross-device synced habit tracker app using **Firestore** as the cloud backend and **Room** for local persistence.
- Integrated **Firebase Email/Password Authentication** to securely manage user sessions and personalized data.
- Utilized **Kotlin Flows** to enable reactive data handling between local and remote sources.
- Designed a modern UI with **Jetpack Compose**, enhanced with smooth, delightful **animations** for a seamless user experience.

### News Bites | *Retrofit, Moshi, REST APIs, Navigation Component, LiveData*

Jun 2023 – Jul 2023

- Developed a modern Android news app that delivers the latest headlines across categories.
- Integrated the Jetpack **Navigation Component** and **Fragments** for seamless user experience and smooth app navigation.
- Utilized **Retrofit** along with the **Moshi** library to efficiently fetch and parse 25 news articles daily from newsapi.org and display them in the app.
- Extensively applied RecyclerView for displaying news articles.

### Todo Champ | *Jetpack Compose, MVI, Dagger Hilt, Firestore, Coroutines*

May 2025 – May 2025

- Developed an Android to-do list app with features to add, update, and delete tasks using **Jetpack Compose** and **MVI** architecture.
- Integrated **Dagger Hilt** for dependency injection, ensuring a clean and modular codebase.
- Used **Firestore** to store and sync tasks in real-time across devices.
- Handled UI state with **Kotlin StateFlow** and managed background operations using **Coroutines**.

## TECHNICAL SKILLS

**Languages:** Java, Kotlin, Python

**Android Development:** Jetpack Compose, MVVM, MVI, Room, Navigation Component, LiveData, ViewModel, Kotlin Coroutines, Flow/StateFlow, Data Binding, View Binding, XML

**Libraries & Tools:** Android Studio, Retrofit, Moshi, Gson, Coil, Glide, **Firestore**, **Storage**, **Dagger Hilt**, Timber, Git, GitHub

**Concepts:** Object-Oriented Programming, Data Structures & Algorithms, REST APIs

**Other Tools:** Gradle, Firebase Console, Play Console

## EDUCATION

### VIT Bhopal University

Bhopal, Madhya Pradesh

*B.Tech. in Computer Science | 9.08 CGPA*

*Aug 2022 – May 2026*

### Kendriya Vidyalaya, No.1, A.F.S

Gurugram, Haryana

*Class 12<sup>th</sup> (CBSE): 93.8%*

*2021 – 2022*

*Class 10<sup>th</sup> (CBSE): 94.4%*

*2019 – 2020*
